

Health-e-Schools Telehealth Program

Dear Parent or Guardian,

We are excited to announce that Health-e-Schools telehealth services are available for your child either at school or in the virtual/remote learning environment. We are available during regular school hours to meet your healthcare needs via telehealth. If your child is at school, your school nurse has been trained to work with our healthcare providers online, via safe and secure computer equipment. Or, if learning at home, your child can be seen via video using your smartphone, tablet or computer with a camera.

How do I request an appointment or talk with a Health-e-Schools nurse?

- If you need to be seen at home - email appts@crhi.org with your information including name, date of birth and a good contact number for someone to call you.
- If you need to be seen at school - contact your school nurse or email appts@crhi.org with your information including name, date of birth and a good contact number for someone to call you.
