Madison County Schools
Mission

The students of Madison County Schools will have meaningful experiences and valuable academic preparation to ensure a brighter future.

MCS Protective Mask Production: This week a group of MCS educators from both of our high schools met and collaborated on using our 3D printers to develop protective masks for our Madison County Health providers. This important initiative will increase the local stockpile of PPE. Currently, our local health providers have to reuse masks, and there is no existing store of protective equipment. Madison County Schools will utilize grant funds from the Dogwood Health Trust to purchase 2,500 N95 masks for our bus drivers and our Madison County Health providers.

Madison County Schools' Heroes: MCS heroes helped load food onto buses at Hot Springs Elementary School Thursday morning! We are so proud of the impact our school family is making within our schools and our communities. Together - Whatever It Takes - We are Making It Happen!

Virtual Learning for BCES Teachers: Teachers met virtually on Zoom to have Grade Level PLC's. Teachers discussed Distance Learning and student/parent communication. The teachers also discussed getting their school connected to Class Dojo. The best part was seeing the smiling faces! Bear teachers and staff are really missing their Bear students!

State Board of Education Meeting: The State Board of Education held an emergency conference call meeting at 2:30 pm on Thursday, April 9. Agenda items included the following:

- [SBE/DPI waiver requests to the General Assembly](#)
- [Licensure and educator preparation requests to the General Assembly](#)
- Transportation hold harmless efficiency ratings
- [Approval of a limited contract extension with Istation](#)
