District Administrative Team Meeting: Our Administrative team met today while maintaining social distancing guidelines to discuss learning options for the 2020-2021 school year. Governor Cooper has outlined three options for starting school in August and we are working diligently to maximize student learning in all three plans. *Plan A* will allow students to return to school while practicing social distancing guidelines and cleaning protocols outlined by the CDC. *Plan B* is an option that would require our district to operate at half capacity and *Plan C* would place us into a remote learning environment. District team members drafted portions of our Remote Instruction Plan today which consists of 15 components that will address how student learning would look this school year if we were in a remote setting. We want your input so please be looking for surveys next week that will ask questions directly related to how you feel regarding your child's learning options for August. A special "Thank You" goes out to our Administrative team! They are working tirelessly during this time.

Madison County Schools Mission

The students of Madison County Schools will have meaningful experiences and valuable academic preparation to ensure a brighter future.

Kiosk Addition at Central Support Services; A Kiosk has been added at Central Support Services to assist with body temperature checks of employees and visitors entering the building. The Kiosk is designed to provide a quick no touch digital temperature reading of the person positioned in front of the monitor. Also notification by the Kiosk is provided if the temperature detected is above normal. This equipment helps provide a level of protection for the health and safety of our employees and visitors. Together we are Making It Happen!

Happy Independence Day: Let us remember to pay tribute to our brave American Heroes!

One Flag, One Land, One Heart, One Hand,
One Nation Evermore!
