Madison County Schools

Mission

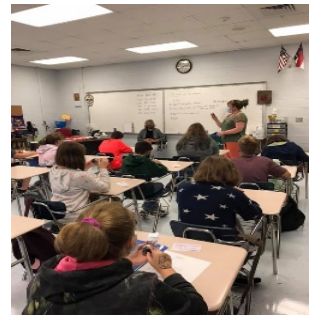

The students of Madison County Schools will have meaningful experiences and valuable academic preparation to ensure a brighter future.

Welcome Back Students:

I want to congratulate our students, teachers, and staff for a great first week of school. There is nothing that can replace face to face instruction, and our number one goal is keeping our students in school from 8:00-3:00, 5 days per week. The decisions that we make weekly are geared specifically toward that goal. At our weekly meeting this morning with the Board of Education Chair, the Assistant Superintendent and Madison County Health Officials we discussed our most recent and up to date health information for Madison County Schools related to COVID 19. Together we are Making It Happen for our students!

New Employee Orientation: Madison County Schools welcomed new employees at an orientation meeting held on Thursday afternoon at Madison Early College High School. Approximately 37 new employees attended the meeting and received helpful information from our Central Support Services departments including Personnel, Payroll & Benefits, Finance, Exceptional Children, Testing, and Technology. Thank you for all that participated in the orientation meeting!

Tools for Schools Supplies:

School Counselors and Social Workers from each school met today for collaboration and planning for the 2021-2022 school year. This group also worked together to sort, pack supply boxes and deliver the donated school supplies to each school. The supplies were collected during the Ingles Tools for Schools Supply Drive on August 4th. We are grateful for all the donations from our community!
