Students Learning Math Skills:

MHES third grade students participated in an exciting "Fraction Career Day" to witness how fractions are used in the workforce. Volunteers included a chef, pharmacist, mechanic, pediatric nurse, baker, and a biomedical scientist. Students learned about fractions in careers through interactive items, demonstrations, and hearing guests share about everyday mathematical opportunities in their fields. Thank you to all the participants for volunteering your time for the students.

School Nutrition Offers New Meal Options:

MCS School Nutrition staff serving new food choices for our students and staff. This week the new choice included lasagna roll-ups with a whole grain breadstick. The apple slices are from USDA and locally grown in North Carolina. We hope the students and staff enjoy a revamped menu. We appreciate our school nutrition staff for always preparing and serving nutritious meals for our students and staff!
