August 8, 2022

"The Board of Education, the County Commission and the Madison County Sheriff have worked together to fund School Resource Officers in each of our schools. This has always been our highest safety priority. We have also worked to fund digital camera systems at each school, additional counseling, and social worker support at each school and site-based therapy to create safe school environments at each of our schools. We have now seen senseless school shootings over and over again across our nation. As superintendent of schools my highest priority is the safety and welfare of our students and staff. I believe in our School Resource Officers; they build strong relationships with students, and they are highly trained in the use of firearms and de-escalation strategies. They have my trust; the trust of our Board of Education and they have earned the public's trust. They need to be able to take decisive action that includes all appropriate steps to neutralize an assailant, should a critical incident occur."

Dr. Will Hoffman
Superintendent
